

## IN THE CLAIM

Please cancel Claims 1 to 2, without prejudice or disclaimer of the subject matter thereof, and add new claim 3. The added new claim 3 is a copy of the second and third paragraphs in page 4 of the present invention and some features about the element 20 in Fig. 2 of the present invention is added. In fact, the claim 3 claims the feature in the Fig. 2 of the present invention. The relation of the new claims with respect to the original claims and Fig. 2 are shown in the following REMARK, Examiners can read the claims more easily from the REMARK.

## **LIST OF CLAIMS:**

Claims 1 to 2 (Cancelled)

Claim 3. (New claim) A picture holder capable of holding pictures, posts, or photos comprising:

a stable supporting device including two downwardly and outwardly extended flaps, and an upper panel coupled between the upper portion of the flaps, to form an inverted U shaped stable supporting structure; and

a loose-leaf binder device engaged onto the upper panel of the supporting device, and secured to the upper panel of the supporting device with fasteners; the loose-binder device having a retaining strip which has a hollow space at a longitudinal direction; and at least one transversal slot; the loose-leaf binder device further including at least one binder ring provided thereon; the at least binder ring passing through the at least transversal slot so as to be fixed to the retaining strip; the binder ring serving for detachable or changeably attaching pictures or posts or photos thereon.
